GSA stands out from the market with his references as a hot dip galvanizer.

Specialist for all kind of fasteners (screws, nuts, washers, bolts, bars, anchors...) The company distributes products from top brands to own manufacturing, in all kinds of finish, where technical requirements meet highly competitive prices.

The industrial sectors which we serve are wide-ranged, from electrification, telecommunication and railway to urban furniture and road safety over construction and renewable energies.

The added value which we offer our clients and which distinguish us from our competitors relies on our capacity to achieve whatever our customers need, in terms of finish and delivery time.

If what you order exists, we deliver it to you, but if not, we invent it for you...

Consult us and let us work on it, you will be surprised.
